### **Nonprofit Organizations and Grant Writing Services**

Our CEO has organized more than a dozen nonprofit organizations either as the executive director or as the primary consultant to a newly established Board of Directors. Our CEO and VP of Legal Fiscal Compliance, together with other support staff, have served as lead consultants on taxes and bond financing that exceeded \$50 million dollars. We have worked with HUD, Economic Development Authorities (EDA), and Industrial Development Authorities (IDA) on behalf of Boards of Directors and clients.

Working closely with tax counsel, bond counsel, underwriter counsel, Issuing Authorities and their counsel, and many other professionals, we understand delicate issues like inurement. We understand that it is imperative to avoid conflicts with for-profit management and vendors, as well as the need to RFP many services or product purchases. We understand appropriate nonprofit governance and the need for accountability to your Board of Directors and constituents, let alone the IRS and maintaining your valued 501 (c) 3 status.

We understand how critical grants and fundraising are to your organization and can make our team of specialists available to assist you in any aspect of funding as well. We can research the best grant options for your company, prepare grants, and draft or reword Exhibits such as Executive Summaries, Forecasts, or Mission Statements. Last, but far from least, we can create a fertile environment for governmental and private grants for your organization. We can also help to develop programs and documents that attract private support for your organization including awards and donations.

Grant writing and preparing proposals in response to RFPs can be daunting undertakings. These documents often reach hundreds of pages in length and must respond to every point in the solicitation with precise language and strict attention to every detail. Our skilled technical writing staff can assist your organization by writing all or part of your grant or proposal or by editing or reading your document it to ensure that you have responded to every item required to compete for the award. Our experienced accounting team can review your cost proposal to make sure that you are “in the ball park” for the type of grant or contract you bidding.
